

# California **Veterinary Specialists**

Thanksgiving is a wonderful time for celebration, sharing, and indulging in delicious food. Sometimes, our canine family members can indulge too much and end up with stomach upset (vomiting and/or diarrhea) or occasionally even pancreatitis. For this

reason, Dr. Benjamin Polansky with California Veterinary Specialists recommends not sharing any table scraps with your pets. Instead, try some of our favorite online dog friendly seasonal recipes that are delicious and safe for your canine kids.
